The code carries this pass: the reference, your first name, the leg, the date and the class. Guest Relations reads it at a glance. It is not the carrier's ticket.

This travel pass records your selection for the wedding journey of Haruthai & Suthep as it stands at the time of download. Nothing is paid on this website. Guest Relations confirms the arrangement with you personally; the carrier's ticket follows from Guest Relations. If you change your journey, download this pass again; the newer one is the one that counts.
